

Test Manager

Test Manager

Start: As soon as possible
Location: Stockholm, Sweden
Number of positions: 1

We are looking for a strongly motivated and enthusiastic **test manager** with a winning attitude ready to take part in the development and quality assurance of new innovative features in our online food ordering platform. Our ideal candidate thinks in a structured way outside the box, has a nose for details and is fearless and efficient when it comes to execution.

We are recruiting more developers, testers and system administrators to join our tech team, ready to bring our technical platform to the next level. You will be responsible for the quality assurance of the platform.

Want to make a difference? You will work with bright minds in an inspiring start-up environment in central Stockholm where fast decisions and high pace is our everyday. We operate in an agile environment focused on iterative development to build our web and mobile platforms.

About Mat24

Mat24 started in Sweden 2005 as a first mover and pioneer in the online food ordering segment by launching the web site OnlinePizza.se. Today we are 30 team members in Sweden and operate internationally with huge success in countries like Finland, Poland and Austria. Within Europe, we serve 10+ millions meals on yearly basis. Together with our partnerships in Europe, Asia, South America and North America we are a part of the world's largest online food ordering network.

Mat24 is run by entrepreneurs together with well-funded investors.
